- **Onboarding and support** — we guide you through the entire process
- **30 days of platform access** included in the package

Pilot package

350 EUR

net · one-off · complete kit

EXTENDED OPTION

Pilot with NFC DNA — cryptographic security

Each carrier generates a unique, dynamic token on every scan — protecting the product against cloning and unauthorised duplication.

Available for clients requiring anti-counterfeit protection.

Custom pricing — tailored to the use case.

How to begin

- | | | |
|-----------|---------------------|---|
| 01 | Confirmation | Send an email — we issue the pro-forma invoice. |
| 02 | Kit dispatch | 20 NFC carriers + platform access within 5 business days. |
| 03 | Pilot launch | We deploy the DPP for your first products — together, online. |

Order the pilot — deploy the DPP within 5 business days.
